The quilt show is planned by the quilt show co-chairs and the sub-committee chairs but it would not be possible without QA members volunteering for countless hours of working on quilt registration, merchant mall, data flow, story editing, staffing, program, setting up the show and working during the show. More than 240 members (and many family members) volunteered during quilt show week. Thank you to each and every person who committed hours to support the show!

And last, but not least, a thank you to all the members who entered more than 450 quilts in the show!
